I still don't know the full effects!

Give it back!

That is still in the experimental stage!

Perhaps you wish to have more subjects?

Hmm, but...

Huh

?

Over here

You have two experiment subjects

One
sample
is
enough
for me!!

Watch
out!!

And then the four of us got a date each this time

The first two dates went to Sonnel

And G-ko

But still, what do we do when we get it back...

Therefore, he got away with the last dose

In a mean time, I can't help but want to study my son

That is under control

Figure 1. The effect of the concentration of the inhibitor on the polymerization of α -methylstyrene initiated by BuLi in THF at -78°C . The concentration of BuLi was 0.01 mol/L , and the concentration of α -methylstyrene was 0.1 mol/L . The concentration of the inhibitor was 0.001 mol/L (○), 0.002 mol/L (□), 0.005 mol/L (△), 0.01 mol/L (◇), and 0.02 mol/L (×).

That drug is special... Analysis is difficult once it has been injected...

That's a
